You should be taken to a page that looks similar to the following, but custom to the type of device your running (windows, mac, etc.):

## Set up printing for Windows

### Step 1

Click the button below to download Mobility Print

Download

### Step 2

Run the Mobility Print installer to install your printers

When it's time to print, just print like you normally do

#### TIP

- Don't change the name of the installer; it tells Mobility Print where the printers live

Not your operating system? Try one of these!

If you do not see a page similar to the above, or receive an error, try using this alternate link:
